PERFORMANCE

UPGRADES

Introducing the Talos Performance MK.RC100 Caliper, designed to take your motorcycle's braking performance to the next level. Our components allow for a vast improvement over stock calipers, offering increased braking power and control for a safer and high performance ride. When paired with an upgraded master cylinder, this caliper offers even greater improvements over stock braking systems, giving you the confidence to push your motorcycle to its limits. Machined from billet, this caliper is a high-quality, precision-engineered performance product. Upgrade your Ducati's braking system with the Performance Billet CNC Caliper and experience the difference on the road or the track.

TALOS
PERFORMANCE

UPGRADES

Introducing the RCP Master Cylinder, the ultimate upgrade for your BMW motorcycle's braking system. This fully adjustable master cylinder is designed to not only enhance your bike's performance, but also provide a better braking experience than the stock system. With adjustable pivot position and lever distance, you can customize the feel and response of your brakes to your liking.

Crafted from billet machined aluminum and featuring a CNC fluid reservoir, the RCP Master Cylinder is both durable and stylish. Whether you're hitting the track or cruising the streets, this master cylinder will take your braking to the next level, providing unmatched control and responsiveness. Say goodbye to stock braking limitations and hello to a new level of braking performance with the RCP Master Cylinder.

UPGRADES

Upgrade your Kawasaki motorcycle with the MBK.PC Brake Caliper, our high-performance monoblock caliper made from billet aluminum. This caliper is a huge improvement from the stock braking system, offering increased braking force and better overall performance. The caliper is anodized and available in a variety of colors, allowing you to customize the look of your bike while also improving its function. Trust in the quality and reliability of Talos Performance MBK.PC Brake Caliper for an enhanced riding experience.

UPGRADES

The MBK.SC Brake Caliper is a high-performance, monoblock caliper designed as an upgrade from the stock Suzuki caliper. Crafted from billet aluminum, this caliper is both lightweight and incredibly durable. It is available in anodized or nickel plated finishes to suit the aesthetic preferences of any rider.

Featuring an increased piston diameter compared to the stock caliper, this upgrade offers increased braking force and improved overall performance. With its sleek design and superior construction, the MBK.SC Brake Caliper is the perfect addition to any motorcycle enthusiast's inventory. Upgrade your braking system and experience enhanced stopping power with this top-of-the-line caliper.
